BANGLADESH

Bangladesh is located in the north-eastern part of the South Asian subcontinent between longitudes 20°34' and 26°38' North and longitudes 88°01' and 92°24' East. It is bordered by India on the West, North and the East and by Myanmar on the Southeast. To the south lies the Bay of Bengal. Bangladesh has a land area of about 147,570 Sq. Km comprising mainly the delta of the three mighty rivers, the Ganges, the Brahmaputra and the Meghna, having a population of 160 million.

Dhaka being the capital and center of all major activities of the country, Bangladesh has two sea ports, one at Chittagong and the other at Mongla.

Bangladesh has a good number of large, medium and small sized industries in both public and private sectors based on both indigenous and imported raw material. Among them are Jute, Cotton, Textile, Fertilizer, Engineering, Shipbuilding, Steel, Oil-refinery, Paper, Newsprint, Sugar, Chemicals, Cement and Leather. Raw Jute and Jute industry has traditionally played an important role in the national economy. In recent years, Ready Made Garments Industry has replaced Jute industry as the principle export earner for the country. Considerable progress has been attained in the past few years in industries such as Leather, Ceramic, Shrimp, Fish, Pharmaceuticals and Frozen Good.

Bangladesh with its poor communications infrastructure both river and road are faced with a huge task to support the various development projects. Proper equipment's are scarce and logistics are inadequate. The government has taken various steps to develop the infrastructure of the country. As such in near future the development projects will gain speed. Bangladesh emergence as the new mini power of South East Asia shall be highly accelerated.

Tricom Freight & Logistic Ltd. has been working to supplement the transportation and logistical requirements of Bangladesh for quite some time now and hope to contribute more in this field in the coming Years.

We offer to our customers a full logistics & shipping solutions for projects & heavy lifts from initial planning and budgeting phase to the final delivery and facility start up.

Water transportation

Water transporting of oversized and/or heavy-Lift Cargoes is performed taking into account various aspects: Cargo capacity of the Ship; it's size and the possibility of securing Cargo on deck or in Cargo holds; Cargo units and/or Ship's parcel weight and size; draught and seaworthiness (stability) of the ship; as well as compliance with the rules of International maritime transportation of Cargoes. Calculation is required for all loading-unloading

operations, as well as safe and precise stowage of Cargo on board.

Feasibility of oversized and heavyweight Cargo transshipment at ports and temporary landing stages is determined depending on the availability of required Cargo handling equipment, proper storage place and qualified dockside workers. Together with the stevedores our staff develops a technical plan and handling scheme for oversized loading/ unloading, its positioning at the port terminals and landing stages territory or loading on the Rail transporters or jumbo trailers pulled by Heavy Haul Trucks.

Tricom Project Logistics barges Classify for :

- Unrestricted navigation area.
- Class sea-river.
- Safe use of the SBL 1100 hydraulk gantry system on the barge.
- Direct transport from any port worldwide to a special designed and constructed temporary Ro-Ro berth within Bangladesh Internal Waters.
- Empty permissible draft of about 1 m or even less.

Heavy Road Trucking

Oversized or heavyweight cargo transportation by Road is one of the most important areas of our business. Such transportation requires development of a special project paperwork that needs to be approved by governmental bodies and controlling authorities. It is regulated according to "The Shipping instructions for Heavyweight and Oversized cargo by roads of the Bangladesh" which oblige the transporting company to have all the required permits and make thorough examination of all transshipment sites and the rout itself.

"Tricom Projects Logistic" Road Transport

- * Heavy haul trucks by "Mercedes", "MAN", "Volvo"
- * Self-propelled modules by Faymonville & others.
- * A wide range of modules MRF-4 by "Faymonville" to form trailers of certain configuration and capacity,
- * Hydraulic platform by Faymonville & others
- * Trailer modules by "Scheuerle & others
- * Sectional vessel-trailer by Greiner & others
- * Sectional vessel-trailer by "Faymonville & others
- * Transformer trailer by "Taymonville & others
- * Set of turntables.

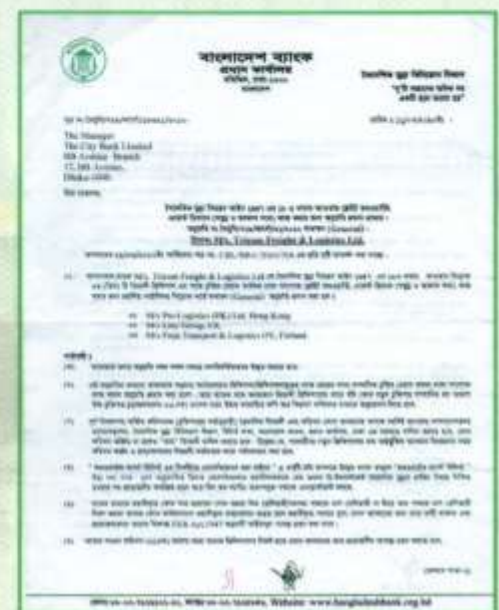

Installation, Mantling and Assembly

Taking into account the specific of oversized and heavyweight cargo, this scope of works for various objects includes:

- * Development of work production plan;
- * Lifting-lowering of oversized objects, over 1300T.
- * Handling of the object of any size and complexity.
- * Movement of object.
- * Foundation job.
- * Mantling and assembly.

The works are performed using Company's own special rigging and lifting equipment: specialized sets of jacks, horizontal skidding system and hydraulic gantry system SBL 1100 load capacity up to 1100 T. All the machinery and equipment has proper certification and has been preliminary tested.

High qualification and certification of our personal ensure quality operations with oversized and heavyweight cargo.

Infrastructural construction in the development of offshore fields

The main export supplies of Asia, Middle-East & others Countries oil products go through seaports. The port for shipment, or, as experts say, transshipment of oil and petroleum products is a complex set of facilities and technical means to ensure the reception, temporary storage of hydrocarbons and their loading into the arriving tankers.

The development of offshore oil and gas fields requires the creation of unique structures - offshore fixed platforms, terminals and complexes. To establish such an object at one point in the middle of the open sea is a rather difficult task, the company "Tricom Projects Logistic" successfully manages such tasks.

The company "Tricom Projects Logistic" performs a complex of operations for such works, beginning with the design of works and equipment ending with the delivery of the object.

Multimodal Container Transportation

At present, "TRICOM Projects Logistic" provides a full range of services for the organization of International Container Transportation of goods through the ports of Dhaka, Chittagong, Mongla, & Payra Ports, Bangladesh.

Our services include:

- Port-to-Port or Door-to-Door delivery
- Consolidation of cargo from different senders into one container for one consignee
- Oversized / Oversized and Heavyweight
- Container forwarding
- Customs Brokerage services
- Preparation of Customs documentation
- Organization of Cargo handling in Ports, Railway Terminals and at customs warehouses
- Cargo insurance, issue of a through waybill

Our advantages:

- Delivery and delivery of containers by intermodal schemes involving sea, rail and road transport
- Own port terminals and sea lines
- Own fleet, fleet and other assets for the transport of goods in containers
- Full range of services for transportation, registration and interaction
- Delivery of goods by refrigerated containers (if necessary) by sea and (or) Railway transport
- Efficiency of transportation

Within the framework of this project the following works were performed:

- Sea freight;
- Customs clearance;
- Construction of a Temporary berth on an unequipped shore;
- Filling the Road on the way of the Road Train;
- Installation of equipment on the foundation;
- The work took place in the same region and in similar weather conditions.

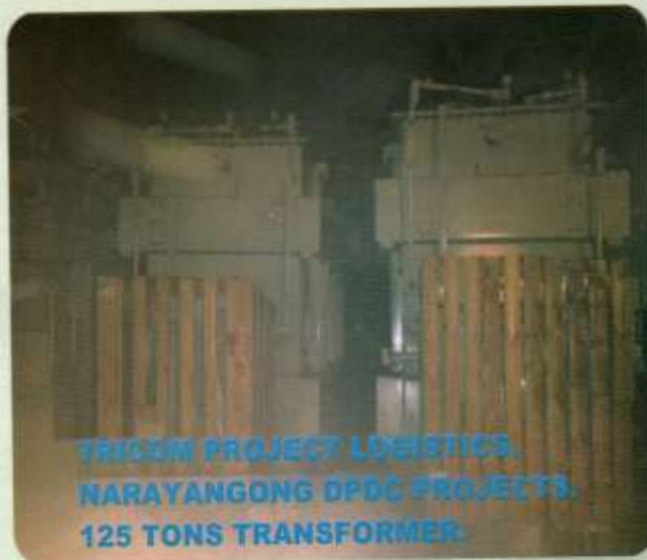

Customs brokerage

"TRICOM Group" is the official customs broker. Our company provides the full range of services for Custom clearance of the Cargo crossing all over Border of Bangladesh.

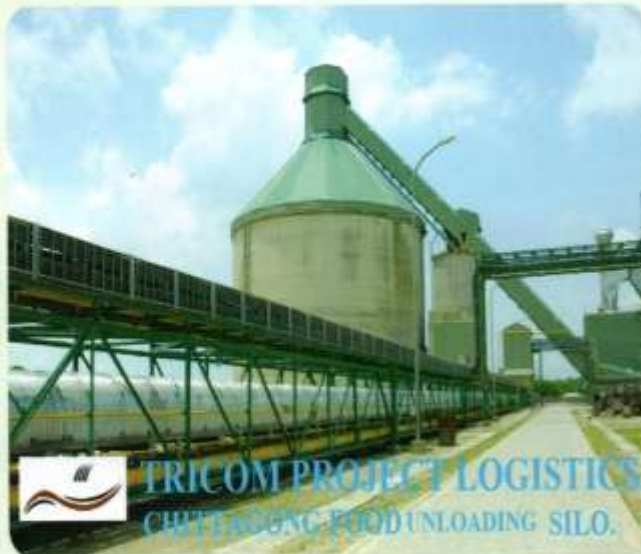

- Preparation, Registration and verification of documents for the declaration of the goods, vehicles, as well as approval of customs declaration (the declaration of goods).

Kind Attn: Mr. N.C.Ghosh(Kazal)

Dear Sir,

Sub : 220 MW (Gas)/212 MW (HSD) based Dual Fuel Combined Cycle Power Plant Project Area) at Bhola, Bangladesh – Work Order for Logistics scope of work (Loading, Transportation, Insurance & Unloading at site)

Reference : 1. Your quotation vide email dated 23rd April 2018.

This is in continuation to your above referred offer dated 23rd April 2018 and the subsequent negotiations we had, we, **BISHO INFRA PROJECTS LIMITED ("BIPL")** are pleased to issue this **Work Order("WO")** to **M/s Tricom Freight & Logistics Ltd ("Contractor")** for **"Works"** as detailed below.

1) Scope of Work:

Scope of work shall be as detailed in Annexure -1.

1) Time Schedule for Completion

- a) Notice period of 3 working days will be given for arranging of vehicle for pick up of materials at the vendor's place. Total time of loading, transportation and unloading at foundation shall be 04 (four) days (maximum) from the date of pick up the consignment. The time for completion is inclusive of mobilization at site. For any delays attributable to the Contractor, liquidated damages @ 1 % of the Contract price for each week of delay from the Completion date and shall be levied with a maximum limit of 20% of Contract Price.
- b) If the Contractor fails to mobilize his resources or does not mobilize adequate resources to carry out the works in spite of receiving instructions from BIPL and the execution of the works is being delayed without any justifiable cause or reason, BIPL reserves the right to terminate this Work order and complete the balance works at the risk and cost of the Contractor.

2) Bill of Quantities:

- a) The rates ("Rates") stated in the BOQ (Annexure-2) are fixed and not subject to any escalation or variation. The Rates are inclusive of any and all direct, indirect and ancillary charges including cost of insurance for entire works, costs of whatsoever nature including but not limited to all profits, licenses, royalties and other fees, the cost of all manpower, equipment, special tools accessories, consumables, materials, all taxes, duties, Royalty, cess, tariffs, fees, penalties, levies, statutory charges and contributions, insurance, and other charges relating to or arising

validity or enforceability of the remaining provisions of this WO shall not thereby be affected.

- i) This WO supersedes all prior negotiations, discussions, correspondence, agreements or arrangements whether written or oral in connection with the Works.
- j) Termination of contract – Contract shall be terminated by BIPL, if the Contractor defaults in fulfilling his obligations as per the contract and does not rectify the defaults even after issuing notice to the Contractor to rectify his default. In the event contract is terminated due to Contractors default, the balance work shall be completed at the Contractors risk and cost and recovered from any outstanding payment due to the Contractor. Any balance payment due to the Contractor shall be released only after the completion of the all the works.

The Contractor shall sign (in all pages) and return one copy of this WO as an unconditional acceptance of the same.

Thanking you,

Yours sincerely,

For BISHO INFRA PROJECTS LIMITED.

A large red and black barge is being towed on a river. The barge has a long, flat deck with several small structures and equipment. A white tugboat is visible in the distance, pulling the barge. The river is wide and calm, with a hazy background.
